All About Me

Hello, my name is Xiaoxiao Zhang

I am a Mandarin bilingual educator who believes that learning should be joyful, meaningful, and deeply connected to students' lives.

I bring a warm, positive, and engaging presence to the classroom. I often describe myself as a "little sunshine"—someone who creates a supportive and encouraging environment where every child feels seen, valued, and inspired to learn.

Outside the classroom, I enjoy playing the violin, practicing Chinese calligraphy, and playing Go (Weiqi), which reflects my appreciation for both creativity and strategic thinking. I also love traveling and exploring different cultures, which helps me bring global perspectives into my teaching.

At home, I care for six small fish and grow a collection of succulents. These hobbies remind me of the importance of patience, observation, and nurturing growth—qualities that I bring into my work with students every day.

I believe in integrating language learning with social-emotional learning (SEL), project-based learning, and real-world connections, so students not only learn a language but also grow as confident and thoughtful individuals.

As an educator, I value building strong relationships with students and families, and I strive to create a classroom community that is caring, inclusive, and full of curiosity.

Hicks Canyon Elementary

This snapshot captures a moment of joyful, interactive learning, where I use movement, expression, and storytelling to actively engage young learners. By creating an energetic and responsive environment, I encourage students to participate, think creatively, and develop a love for language.
